

NATURE'S FINEST COMPOSITION

Caprica

Symphony No. 3

THE MELODIOUS MASTERPIECE

Symphony No. 3
MELODY RISES
From The Horizon

Conducting another
exquisite composition

Caprica at Musika Homes echoes the beautiful sentiments
of its predecessors but with an added twist on the
architecture design—a ballad waiting to be discovered.

AWARD-WINNING TOWNSHIP

Of Promised Excellence

Welcome to Setia Alam, where dream homes come true and elevated lifestyles beckon. Setia Alam is a true masterpiece of 2,525 acres brimming with amenities and attractions, and close to the city centre.

2,525 Acres

One of the largest townships in Klang Valley

Award-Winning

Recipient of the FIABCI Best Master Plan Award

A Sustainable Township

Designed with environmental-friendly measures

400 Acres Of Greenery

Comprising lush landscapes, verdant shrubbery and parks galore

Pocket Lounge Areas

Ample rejuvenating spots in the parks and gardens for the community to recharge and relax

DANCE TO THE RHYTHM OF NATURE

Sway To The Sounds Of Wilderness

Immerse in the bounty of nature and be engulfed by the soothing harmony of the atmosphere.
Let the Musika Pond enhance your life by the pond with the array of parks, gardens and lush open spaces.

GO WHERE THE GUITAR TAKES YOU

Nature Plays Endlessly

Revel in the beauty of nature and enjoy the mellifluous sounds of birds and waterway as the Guitar Pier leads you to the wondrous lake.

MUSIC IN THE AIR, *Love In Nature's Affair*

Admire nature at large when you take a break at the Elevated Heart-Shaped Walkway with your loved ones. Let the natural breeze lull you into a quiet reflection and break you away from the bustle of the city.

LISTEN TO *The Melody*

PIANO PAVILION
Artist's Impression

No rush and no fuss, just pure relaxation by the lake. Jog or cycle at your own pace on the dedicated tracks that weave through the neighbourhood.

And if you are feeling a extra chirpy that day, take some nice photos by the elevated piano and enjoy the scent of the surrounding flower beds.

BUTTERFLY GARDEN

6

SENTIMENTS
OF CAPRICA

Emulating the pleasant succession of sounds in rhythmic, melodic and harmonic order, Musika Homes is built on six components that embrace the connection between purposeful design and human interaction.

Creative Placemaking

A haven for young and old to enjoy the well-facilitated common spaces.

Wellness Community

Outdoor facilities are properly allocated at the parks to encourage interaction between the residents.

Interactive Gardens

Wondrous escapade for the nature lovers and anyone who admires the beauty of greenery.

Natural Landscapes

Fruit trees, flowering shrubs and waterway are a celebration of the resident wildlife, flora and fauna.

Walkable Neighbourhood

Pedestrian walkways, cycling routes and jogging tracks are designed to create a safer environment.

Future-proof Homes

Setia Green Living features promote sustainability and enhance the liveability of the enclave.

EMBRACING YOUR *Changing Needs*

Caprica is more than a home that sings to your heart’s desires; it is part of the green living initiative. What this means is that every Caprica home is updated with the latest fittings and features from this initiative to promote sustainability and a wellness lifestyle.

Fixtures for easy living

- 1 Alarm system
- 2 Solar water heating system
- 3 Booster pump
- 4 Laminated timber flooring on first floor

Features to enhance space

- A 22 ft-wide car porch
 - B Practical layout
 - C Fully extended
- *Courtyard
(Intermediate units only)

Industrialised Building System (IBS)

Components produced at a controlled site for a more sustainable building solution.

Healthier Air Quality

Indoor air quality controlled and monitored through the Complete Air Management System (CAMS), an innovation by Panasonic Malaysia.

Solar PV

Solar panels generate electricity to power all general electrical points at home.

Green Switch

Master switch for all general lightings, controlled via one click.

Box 366

Contactless delivery dropbox for parcels and food items.

Digital Lockset

Highly secured lockset for main door.

North And South Oriented

Minimise direct sunlight

Natural Environment

Surrounded by music-themed landscape

Convenient Location

Mature township with great amenities

YOUR SUSTAINABLE LIVING JOURNEY *Begins Here*

Apart from the sustainable fittings and features, Caprica homes are also thoughtfully designed with an improved classic architectural style that invite abundant natural light, cross-ventilation and better comfort for all.

Space For Family Bonding

The open-plan layouts invite seamless interaction and foster closer bonds between family members.

Spacious Wet And Dry Kitchen

The wet and dry kitchen layout is designed for bigger and better space efficiency to make cooking and dining more comfortable.

Better Ventilation And Natural Lighting

Large windows and high ceilings allow for better natural lighting and cross-ventilation.

PRIVATE COURTYARD BLISS

A Slice Of Nature Inside Your Home

OUTDOOR TERRACE
Artist's Impression

Besides the outdoor garden space, the Intermediate units feature an indoor courtyard garden right below the skylights, designed for you to admire your green creations at any moment.

COMPLETE AIR MANAGEMENT SYSTEM (CAMS)

Apart from the fresh air outdoors, Caprica is envisioned to provide you with clean air indoors. Hence, with the joint effort of Panasonic Malaysia, Caprica homes are fitted with the Complete Air Management System (CAMS) to control the indoor environment automatically through a smart detection function using AI and cloud-based technologies.

Lasting innovation, better air quality at home
Benefits of CAMS:

**Fresh Air
Management**

**Full-Auto
Algorithm**

**User-Friendly
Control**

**Energy-
Saving**

Note: Complete Air Management System (CAMS) is only installed in the master bedroom of each residence.

USER-FRIENDLY CONTROL

The smart IAQ Remote Controller ensures the air volume and ventilation is optimised via its four sensors (temperature, humidity, PM 2.5, CO2)

Even when you are not at home, the ventilation volume will be regulated automatically based on the IAQ information that the controller detects.

Temperature
Control

CO2
Control

Better Sleep Quality, *Better Control In Life*

According to a study supervised by Dr. Shuichiro Shirakawa, an air-conditioner that controls the humidity by 40%-60% can improve sensations of alertness, motivation, mood, calmness and appetite from a good night's sleep.
